

INTERNET ACCEPTABLE USE POLICY

User Responsibilities

These guidelines are intended for employees and students to make the best use of the Internet resources at their disposal. When using the District's Internet access facilities, you should understand and comply with the following guidelines:

Tornillo ISD's Internet Acceptable Use Policy ("IAUP") is to prevent unauthorized access and other unlawful activities by users online, prevent unauthorized disclosure of or access to sensitive information, and to comply with the Children's Internet Protection Act ("CIPA"). As used in this policy, "user" includes anyone using the computers, Internet, email, chat rooms, instant messaging (IM), peer-to-peer P2P, and other forms of direct electronic communications or equipment provided by Tornillo ISD. It also covers any outside equipment that uses the district's network to access the Internet.

Tornillo ISD will use technology protection measures to block or filter, to the extent possible, access of visual depictions that are obscene, pornographic, and harmful to **minors** over the network. Tornillo ISD reserves the right to monitor users' online activities and to access, review, copy, and store or delete any electronic communication or files and disclose them to others as it deems necessary. Users should have no expectation of privacy regarding their use of district property, network and/or Internet access or files, including email.

Schools must qualify students using the computer network and Internet access at the beginning of each school year with a signed IAUP. Students who are under 18 must have their parents or guardians sign the IAUP and schools must keep the signed page on file. Once signed, the permission/acknowledgement page remains in effect until revoked by the parent, or the student loses the privilege of using the district's network due to violation of the policy or is no longer a student of this district.

Employees and other users are required to follow this policy. Even without signature, all users must follow this policy and report any misuse of the network or Internet to a teacher, supervisor or other appropriate district personnel. Access is provided primarily for education and district business. Staff may use the Internet, for incidental personal use during duty-free time. By using the network, users have agreed to this policy. If a user is uncertain about whether a particular use is acceptable or appropriate, he or she should consult a teacher, supervisor or other appropriate district personnel.

It shall be the responsibility of all members of the Tornillo ISD staff to educate, supervise and monitor appropriate usage of the online computer network and access to the Internet in accordance with this policy, the Children's Internet Protection Act, the Neighborhood Children's Internet Protection Act, and the Protecting Children in the 21st Century Act.

Tornillo ISD will conduct annual trainings at the start of each school year that will educate all students including minors about appropriate online behavior, including interacting with other individuals on social networking websites and in chat rooms, cyber bullying awareness, and response.

The following are examples of inappropriate activities on the Internet, but the district reserves the right to take immediate action regarding activities (1) that create security and/or safety issues for the district, students, employees, schools, network or computer resources, or (2) that expend district resources on content the district in its sole discretion determines lacks legitimate educational content/purpose, or (3) other activities as determined by district as inappropriate.
